

THE BENEFITS

Window Graphics can turn virtually any window into an effective marketing tool. All full color window graphics are printed using Vue-Thru technology that allows you to see out from the inside of the window but not view through. Full color window graphics can create privacy, block the heat from the sun and make a window into an jaw-dropping communication tool.

APPLICATIONS

Window Graphics work great in any situation. Car dealers use this technology to bring traffic into a showroom. Retail locations also use window graphics to spark interest with sale information and imagery to create interest in a target market. Window Graphics provide a non-conventional way of getting attention that traditional means do not create. Here are some other great applications.

- School lobbies & auditoriums
- Car dealership showrooms
- Convention Centers
- Restaurants
- Truck & Car back windows
- Bus and Public Transportation windows
- Skyscraper windows
- Storefront windows in malls and shopping centers
- Gas Station/Convenience Store Windows
- Office Building Lobbies

TECHNICAL INFORMATION

Window Film can stick to almost any smooth glass surface. All full color window graphics are printed using our in-house wide format printers and can be laminated for durability. Window film can also be removed without adhesive residue for temporary situations. The adhesive side of the material is black to make it easier to view through the inside.

Thickness - between 3 - 6 Mil (Dependent on overlaminates)

Durability - up to 5 years outdoors

Finishes - gloss, luster, matte

*Up to six months for clean removal.
